South-South Galaxy

- South-South Galaxy is a **digital Platform** facilitating connectedness between countries and regions for knowledge sharing, capacity development and creating partnership and entrepreneurship opportunities by systematizing knowledge sharing.
- A **global platform** that aims to eliminate significant barriers to entry that many partners of the South currently face in accessing a reliable and diverse range of knowledge, information and partners.
- **Powered by Artificial Intelligence (AI)**, which enables it to better “learn” about the interest and behavior of the users and provide the most relevant content so as to enhance user experience.
- This is achieved by **machine learning** – where it tracks user interest and behaviour on the platform, in order to provide them with the most relevant content, data and solutions and enhance user experience.

**SERVE AS A
CONNECTOR FOR
SOUTHERN PARTNERS**

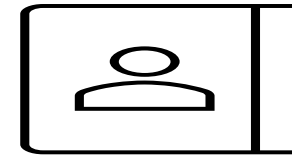

**SERVE AS A
PARTNERSHIP
BROKERING PLATFORM**

**SERVE AS AN ADVISORY
SUPPORT PLATFORM**

Looking Towards the Future

- Outreach to Regions from Headquarters
- Appointment of a new leadership (March 1, 2023)
- Participating in the LDC 5 Conference in Qatar (Ministerial Meeting on South-South Cooperation)
- The High-level Committee will meet on 30 May – 2 June in New York.
- Office will also support the South Summit in Uganda, December 2023.
